*A generalist with a multidisciplinary background and interests. Broad experience collaborating on complex projects on a deadline.
Passionate person and fast learner – if I care about something, I go all in every time.*

Education

HARVARD UNIVERSITY

AB, Mathematics and AB, Government. GPA: 3.9

Cambridge, MA

September 2022 - May 2026

Relevant Coursework: Algorithms, Data Science, Artificial Intelligence, Differential Geometry, Real Analysis

Work Experience & Leadership

IBM

Lowell, MA

Full-Stack Developer Intern

May 2024 - August 2024 & May 2025 - August 2025

- 2025: Architected and shipped “API Import,” a flexible API integration framework enabling customers to import external classification, vulnerability, and data-source definitions into Guardium without a product-release dependency; slated for the next major release.
- 2024: Built a standalone “Generic Universal Connector Plugin” for the Guardium Data Protection team that automated auditlog data ingestion, cutting database-mapping time from ~3 months to ~1 week (~90% faster).

HARVARD TECH FOR SOCIAL GOOD

Cambridge, MA

Executive Director

December 2023 – January 2025

- Led an organization of 11 directors and 101 members delivering 15 software projects for UNICEF, CDC, USDA, Trevor Project, and other nonprofits.
- Owned full product lifecycle across all projects, from stakeholder discovery through deployment.
- Designed, built, and maintained the organization’s website @ <https://socialgood.hcs.harvard.edu/>.

Software Engineer and Project Manager

September 2022 – December 2023

- Managed a team of 4 engineers to build a FreeCAD/Python vehicle blind-spot detection tool for the CDC (Fall 2023).
- Built a JavaScript/React web app on Firebase Firestore for nonprofit MEANS to streamline parsing and tracking of food donations (Spring 2022).

THE ALGORITHM-ASSISTED REDISTRICTING METHODOLOGY (ALARM) PROJECT

Cambridge, MA

Research Assistant

January 2023 - January 2024

- Developed and extended redistrib, an open-source R package for redistricting simulation and analysis, under Professor Kosuke Imai.
- Conducted redistricting analyses of Boston city-council redistricting plans using Markov Chain Monte Carlo (MCMC) and Sequential Monte Carlo (SMC) simulation algorithms.

HARVARD UNIVERSITY

Cambridge, MA

Multivariable Calculus Course Assistant

September 2023 - May 2026

- Create and host workshops, review sessions, and office hours; grade assignments for students in Math 18A (Multivariable Calculus for the Social Sciences).

Extracurricular Activities

Script Writer @ HASTY PUDDING THEATRICALS

- Wrote "Salooney Tunes," a full-length musical for the third oldest theater organization in the world, which ran for five weeks in Cambridge before touring New York City and Bermuda

Staff Writer @ THE HARVARD LAMPOON

- Writer for the oldest continuously-published humor magazine in the United States. Parody work nationally distributed alongside *The Hollywood Reporter*’s September 2026 issue.

Additional Information
