

BENJAMIN LANGMAN

10 Kinsley Road, Acton, MA 01720 | blangman@college.harvard.edu | 978-844-8029

EDUCATION

Harvard University

AB in Mathematics and Government, GPA: 3.9

Cambridge, MA

September 2022 – May 2026

Relevant Coursework: Algorithms, Data Science, Artificial Intelligence, Discrete Mathematics, Real Analysis

WORK EXPERIENCE & LEADERSHIP

IBM

Full-Stack Developer Intern

Lowell, MA

May 2024 – Aug 2024 & May 2025 – Aug 2025

- **2025:** Architected and shipped “API Import,” a flexible API integration framework enabling customers to import external classification, vulnerability, and data-source definitions into Guardium without a product-release dependency; slated for the next major release.
- **2024:** Built a standalone “Generic Universal Connector Plugin” for the Guardium Data Protection team that automated audit-log data ingestion, cutting database-mapping time from ~3 months to ~1 week (~90% faster).

Harvard Tech for Social Good

Executive Director

Cambridge, MA

December 2023 – January 2025

- Led an organization of 11 directors and 101 members that delivered 15 software projects for UNICEF, CDC, USDA, the Trevor Project, and other nonprofit partners.
- Owned full product lifecycle across all projects, from stakeholder discovery through deployment.
- Designed, built, and maintain the organization’s website (socialgood.hcs.harvard.edu).

Software Engineer & Project Manager

September 2022 – December 2023

- Managed a team of 4 engineers to build a FreeCAD/Python vehicle blind-spot detection tool for the CDC (Fall 2023).
- Built a JavaScript/React web app on Firebase Firestore for nonprofit MEANS to streamline parsing and tracking of food donations (Spring 2022).

The Algorithm-Assisted Redistricting Methodology (ALARM) Project

Research Assistant

Cambridge, MA

January 2023 – January 2024

- Developed and extended *redist*, an open-source R package for redistricting simulation and analysis, under Professor Kosuke Imai.
- Conducted redistricting analyses of Boston city-council redistricting plans using Markov Chain Monte Carlo (MCMC) and Sequential Monte Carlo (SMC) simulation algorithms.

Harvard University

Multivariable Calculus Course Assistant

Cambridge, MA

September 2023 – May 2026

- Create and host workshops, review sessions, and office hours; grade assignments for students in Math 18A (Multivariable Calculus for the Social Sciences).

EXTRACURRICULAR ACTIVITIES

Script Writer, Hasty Pudding Theatricals

- Wrote *Saloonie Tunes*, the 177th annual musical for Hasty Pudding Theatricals — the third-oldest theater organization in the world and Harvard College’s largest theatrical production.

Staff Writer, The Harvard Lampoon

- Writer for the oldest continuously published humor magazine in the United States.

Trip Leader, Harvard Outing Club

- Lead hiking and backpacking trips for Harvard students.

ADDITIONAL INFORMATION

Programming Languages: Python, Java, JavaScript, TypeScript, Go, C, R

Frameworks & Libraries: React, Next.js

Databases: MongoDB, MySQL, Firebase (Firestore)

Spoken Languages: English, Russian, French (fluent)

Interests: Comedy writing, hiking, AI ethics, number theory
