Creative Work & Writing

HOLLYWOOD REPORTER

Contributing Writer

Los Angeles, CA

September 2026

- Wrote and edited for *The Hollywood Repordurr*, a satirical parody issue of *The Hollywood Reporter* published as part of the magazine's September issue.
- Read some of my work [here](#).

HASTY PUDDING THEATRICALS

Writer

Cambridge, MA

June 2025 - May 2026

- Wrote "Saloon Tunes," the 177th annual musical of the Hasty Pudding Theatricals, the third oldest theater organization in the world and the largest theatrical production at Harvard College.
- Performed over 40 shows across Cambridge, New York City, and Bermuda.
- Collaborated with composers, directors, designers, and producers to shape tone, pacing, and audience engagement for a large-scale theatrical production.

THE HARVARD LAMPOON

Staff Writer

Cambridge, MA

December 2024 - August 2026

- Write short-form satire and parody pieces for the oldest continuously published humor magazine in the United States.
- Samples of my work are linked [here](#) and [here](#).

Work Experience & Leadership

IBM

Full-Stack Developer Intern

Lowell, MA

May 2024 - August 2024 & May 2025 - August 2025

- Designed and delivered new data-integration features through user-centered design, translating complex technical systems into intuitive, narrative-driven interfaces used by enterprise clients.

HARVARD TECH FOR SOCIAL GOOD

Executive Director

Cambridge, MA

December 2023 – January 2025

- Led an 11 director and 101 member team to source, design, and run 15 technical projects – apps, models, prototypes, and more – for UNICEF, CDC, USDA, Trevor Project, and numerous other impactful organizations.
- Overseeing full product life cycles—from stakeholder discovery to successful deployment—of products.
- Presented project concepts to clients, translating technical outcomes into accessible narratives for non-technical audiences.

HARVARD UNIVERSITY

Course Assistant

Cambridge, MA

September 2023 - May 2026

- Host/create workshops, review sessions, office hours, and grade assignments for multivariable calculus students.
